LAND OWNERSHIP SHOULD NOT HAVE TO WAIT

You may have the desire to own land, but having the full purchase price available today can be the biggest obstacle.

HIP was designed for people who want to turn their regular income into a real asset through a structured and disciplined approach to land ownership.

Choose your land → Set your target → Save consistently → Reach your milestone → Complete payment → Begin your ownership journey.

HIP is more than saving money. It is a guided pathway to owning land.

WHAT IS THE HONEST INVESTOR PLAN?

The Honest Investor Plan (HIP) is a structured 12-month land savings and ownership program that allows eligible clients to gradually work toward acquiring a selected plot of land.

Under HIP, you:

- Select your preferred HED project and target plot.
- Declare your investment target.
- Make structured monthly contributions.
- Track your progress toward your target.
- May qualify for a Sales Purchase Agreement and plot consideration once the agreed milestone is reached.
- Complete payment within the agreed 12-month period.
- Begin the title transfer process upon full payment.

Best suited for: first-time land buyers, young professionals, income earners and Ugandans living and working abroad.

WHY CHOOSE HIP?
